

FROM ZERO TO INFINITY

FIRST, WE BUILD YOUR PERFECT MEDICAL
DEVICE PROTOTYPE. AFTER THAT, WE
REPEAT THAT AGAIN AND AGAIN IN THE
HIGHEST PRECISION IN SERIAL PRODUCTION.

MEDICAL TECHNOLOGY PRODUCTION

seleon gmbh has been producing highly complex medical devices since 1998, ranging from prototypes to final series production. Our broad specialist knowledge, a modern infrastructure, established supplier relationships and a management system in accordance with EN ISO 13485 provide the foundation for manufacturing your products efficiently and in the quality you require. Close cooperation between production and in-house development generates major synergy effects from which you and your products will benefit. The fulfilment of the highest quality requirements across all service areas is our commitment.

SUPPLY CHAIN MANAGEMENT
